PREFACE.

On careful perusal of the following pages we believe every collector will find some article to interest *him*, and we hope he will make a bid for it, the varied character of the several collections enabling him to do so. We would call attention to the collection of Roman and Greek coins, the complete set of gold dollars, and among which are exceedingly rare mint marks as 1854 San Francisco, 1859 Dahlonega, 1860 Dahlonega, of which probably about 5 in all are known. The California Baldwin & Co. $5, one of the great rarities, the superb $50 round and octagon. The Wilcox collection of U. S. Fractional Paper Currency is one of the finest yet offered—rivalled only by the great collection of Monroe J. Friedman, which we sold last year; collectors in this series will find about all the notes they lack, and as many of them are the only specimens obtainable should excite keen competition. Canadian collectors will have a chance to enrich their cabinets with the finest Owen Ropery, side view pennies and half pennies, rare proofs, unique Carrit and Alport, Bridge Tokens, etc.

No lot is separated—all described under each lot number are sold under that number, at so much each piece, no matter how many there may be in it, except where *set* or *lot* is stated.

Owing to several persons sending in bids and not paying for the goods bought and delivered to them, it has become necessary to request collectors unknown to us to send bank reference with their bids or to pay in advance for the lots purchased for them. We find our practice of examining each bid letter on receipt, and instructing the bidder where he appears uninformed as to values, or is probably making a mistake in the lot number, gives much satisfaction to our numerous clients. All letters received four days prior to the day of sale receive this examination. Many errors are thus corrected, often considerable sums saved to the bidder—and also collectors who make bids far below cur-

rent market value when so informed concentrate the sum they desire to spend on lots within their means, thus securing more than they otherwise would.

Priced catalogues will be supplied after sale on receipt of 75c. (stamps taken, any denomination). Payment required with order.

We charge 10 per cent. additional to the price the lot is knocked down for on those purchased by us for our bidders, as our commission for executing the bids, purchasing and shipping. The auctioneers will attend to bids free of this charge, but they assume no risks or responsibility for shipment, and require payment to be made before delivery of the goods.

This has been the rule of the trade for thirty years or more, and we may add that it is an arduous undertaking to enter and attend to the thousands of bids received, the majority of which are unsuccessful and on which there is no remuneration. We have city customers who come to the rooms in person, examine the collection and leave us their bids, paying us the 10 per cent. commission on bills of $300 to $500.

All coins, medals or paper money sold by us are guaranteed genuine, and this holds good indefinitely.

Very respectfully,

S. H. & H. CHAPMAN,

NUMISMATISTS. 1348 Pine Street,
